Way to go, girls!

What a brilliant and oh so contemporary way to honor La Dust!

Well it's all right to go on and live your life, so come out into the light...

that's really cool, Mads & Clare just make sure you don't put any music on it - i made Dusty a MySpace once, complete with music - but it got deleted. so just be careful, okay?

But we can have the one song right? Just not the 3 or 4 you can have if you apply for a Myspace Music thing. Like you arent allowed to say it's your music...but we're allowed to just have SOAPM right?

Love Mads who is freaking out 🤪

It's ok children, calm down.... I think that if you make a MySpace Music account then it will get deleted... but if you make a normal myspace then i don't see how having a song isn't allowed because on normal people's myspaces they have songs on theirs too... So it's probably just if you make a myspace music one coz one of the things offered to you is the choice to put a song on!

yep, that's what i meant - it's fine to have a song on your profile, but not a MySpace Music Account [for Dusty] - as Clare said 😊

Its great Mads - I'm meaning to get mine done - maybe I will when I get

online at home - easier than here at work. (Which is doing my head in today!)

I wont pretend to know what the heck My Space is all about but it looks good! And when I clicked on DS as a friend, there were lots of very nice things said by other fans. Well done.
