This may well have been done before on the forum and if it has, just take me out the back door and batter me over the head with a wet fish.

Failing that, what are your favourite quotations either BY or ABOUT Dusty?

There is one which makes me laugh, and which comes from the Jean Rook interview posted on the main section of this site -

**"I did die my hair magenta, but I've spent half the night in the bath with Persil to get it out. My hair doesn't know where it's going yet. Or let's say it hasn't arrived at where it wants to be."**

Hilarious. I love this womans' sense of humour :)

Great topic!

Here's one of mine:

**"I still think that because I don't go [attend Mass] I am going to Hell... But I don't want to go to Hell because I haven't really done anything evil. I'm just lazy and self indulgent."**

~Don't forget about me, now baby

I love Rob Hoebeger's quote about while other's were reading/singing about the book of love... but I can't find the article anywhere. I thought it was on our website of quotes about Dusty but it doesn't seem to be there. Carole knows the one, can someone please post it here--it's an absolutely wonderful quote. 😊

I think I know what quote you mean Kathy but not where to look for it right now. I do like this quote though from the same guy. It was his fantasy album by Dusty and track 6 was...

My Heart Will Go On. A song that someone born after 1975 will recognise. Background vocals: Lulu, Petula Clark. Handclaps: Celine Dion. Tea and scones: Mariah Carey.

Found it

"It was some of the most emotionally literate music put to vinyl: while other pop singers were still wondering who wrote the book of love, Springfield was teaching a course in comparative literature. "

My Favourite quote is a bit of an odd one to maybe put here, but I have always thought, yeah! way to go Dusty!  
Dusty was talking to Paul Du Noter in an article that I think I first saw in one of Caroles folders. So I have no date for this , maybe Carole can help 🤔 The quote is:

'Oh you know its just.....f\*ck 'em if they can't take a joke'

I think its in reference perhaps to the World as a whole. Please feel free to put me straight on this. I do love it 😊

The poor woman, I think sometimes she got so exasperated with the way people saw her and wrote about her and felt fairly powerless to do much about it. At least she had a good sense of humour to keep her together :)

Yes, Cas the world in general but the music industry in particular. It was from a MOJO article in '95.

Was that the one which she followed up with - I'll go and live up a mountain with 29 cats or something like that Cas.
