Me with Dusty's Buick in 1966 and in the second photo, you can sort of see the colour.

Great pic Carole-is that your Vespa scooter with flag in the background? You Mod!. The Buick was Dusty pink wasn't it or am I confusing it with the Jensen.

No, not my scooter Pat! We travelled in by train and missed the last one home 😞 The only pink car I remember in relation to Dusty was one that a fan (Clare Perry) owned in Australia. She had the reg DUSTY as well I think. The Citroen had that number plate added later. Simon confirmed the plate was never owned by Dusty, she wouldn't be that obvious 😊

Here is Dusty's actual Interceptor when it was up for sale ...

Yes they said this re the number plate on the Citroen .. on the advert for it .[. 1990].. wonder what the original plate was ? and of course she wouldn't have wanted this .. 😊

These photos are great! Love looking at the type of car Dusty drove. Very interesting. Thanks for posting!
