Did the Springfields have a further TV series after their 1961 one?

There are two episodes of that series included on the *Goin' Back* box set, anyone know if these are the only ones that survive and how many episodes there were in the 1961 series?

Clive, I asked around and I believe that those two shows were the only ones the Springfields did. It was a very short series 😊

thanks very much for checking Carole, it never even occurred to me that they were the only shows. How strange the series was so short!
