Dusty's first LP is re-issued on vinyl next week:

Simply Vinyl are extremely proud to present on 180 gram vinyl for the very first time the amazing 1964 release by Britain's greatest ever female pop star Dusty Springfield!

Unavailable on vinyl for decades, Simply Vinyl has used the finest re-masters to create this audiophile vinyl release.

'A Girl Called Dusty' is a classic beautiful mix of soul/R&B covers and orchestrated 1960s pop/rock, and was her first hit album, reaching number 6 in the charts in 1964

Thank you Clive. I'd be interested in buying this even if I already have the original, and I've no where to play it!

Agree with folks, this is a big, big favourite - I still remember hearing most of the tracks blasting out from Radio Caroline before I managed to save up enough pocket money to buy my own record! (Mono version!!) The impact of "Mama Said" hits me every time I play this CD even now! Still have this LP intact in the roofspace along with all my other vinyls. I really must unpack my old stereo unit and try playing these again!

Excitement. I was...uh...born too late to get it the first time around. (hence the name) I think it's my favorite so far. I'm only up through "Dusty...Definitely" so that's not saying all that much, but I just love "A Girl Called Dusty" so much. I think it has something to do with the 3 Bacharach tracks :o) And they happen to be 3 of my favorite Bacharach songs!!!

I really wish Dusty had recorded "I'll Never Fall In Love Again."

I'll definitely be buying a copy, thanks for posting! I only have a record player so listening to the difference between originals and remasters is always interesting.

I just may purchase these I have a whole set up where I can digitally record them from the vinyl and post them. Like my 50 dollar purchase of In Memphis. I was spending before that version buying the original ones from 1969 sealed every one of them had mold on them. Never buy a very old sealed LP it's usually expensive and mold will be on the vinyl and there is no way it will come off. I actually had one done that was sealed new from 1969 that this pro vinyl man did for me and it turned out great I should post it. Just for the original sealed value importance of it.

Did anyone buy this re-issue? Is it the original mixes? Or the 1997 remixes?
