About 5 minutes in, Dusty picks up her award and poses for pictures.

I've seen this before. I think it's the one where you get the mighty trio of the Stones, Beatles and Dusty getting awards. This might even be the starting point, or the inspiration, for the Nicole Kidman movie.

It was such a big deal getting that award. First ever British Female to win the best in the world. You can never take that away from her.

thanks, I've not seen this.
Clint Walker seems a tad out of place...and one big dude! I wonder what Dusty was catching his ear about.
It seems that Dusty got the most mention..nice

Dusty and Clint certainly got a few wolf whistles, Paula.

Seeing Dusty with that big cup made me sad to think that she used to use it as a doorstop and in later years she would kick it around the room in temper. We saw the results in the dented and bent trophy it had become when her memorabilia was auctioned off at Sothebys not long after she died. Someone out there was lucky enough to bid for it successfully. It's out there somewhere, folks.....anyone know?

New Music Express is rather like America's Billboard, am I right? And if I understand, their top 40 chart is not being produced anymore?
