Does anyone recall noticing Dusty's fingernail polish color/s....even toenails, if she did that...if so, can you describe the shade/s and decade/s?

I am sure there were various shades etc but I am interested in people's memories and impressions of which colors looked good on her and which ones she wore most.....

Thanks.

I have read that it was always clear or pearl white. But this is from an artical that was published in the early 60s.

i don't recall seeing Dusty wear nail polish, but i guess clear/pearl white wouldn't show up on photos anyhow.

the only shades i'll wear are emerald green and dark red - so if she wore either of those, she has my approval 🍋

I think of a very pearly pink in the sixties and a deep magenta pink in the eighties.....

I think I prefer the pearly colour on her because it so subtle and goes with her complexion really well as she was so fair. To be honest though I loved her 60's

look even if she didn't care about matching outfits *hehehe* Bless, its so sweet that she couldn't keep em' still, obviously a natural born fidget!

Thanks, everyone. Now my secret agenda....I'm going to get a fancy pedicure and I wanted to get a color befitting of Dusty. I'd like to have my mitts done to, but the polish doesn't seem to last! Any tips from you girly girls?

My nan wears LOADS of nail stuff, I think this is how she wears it and it lasts weeks:

Base Coat
Nail Strengthener

Rimmel nail varnish(she said she's tried them all and this lasts longest)
Top Coat

In that order. Summat like that anyway - She always does them when she's here and it takes her bloody ages.

I think those acrylics would slow down my typing.
Maybe short nails look funny painted?

Matt, I just wanted to personally thank you for not making a crack about hooves v. nails.
