anyone know how many dvds Fraser made & whats on them. i have 3 and 4 with mostly rare sixties tv clips on, that are not on any dvds or dusty bulletin videos. i highly recommend them to all Dusty fans.

As Frasers mother I am sure nobody will know for sure.He seemed to be doing things on Dusty all the time. I am sure you will get a reply from at least two LTD members, they will answer your questions.

Just to add to what Heather wrote, Fraser made CDs on a number of subjects, one of which was - of course - Dusty. But there were quite a few others besides.

thank you very much Heather, i must say your son was a obviously very remarkable & generous person, & no doubt everyone is very grateful indeed for him singlehandedly making all that otherwise unavailable Dusty music & videos for everyone to see! i think Dusty would have definitely considered him her number one fan!
