Just got off ebay and there's a book titled 'The Life and Death Of Dusty Springfield'. Is this new or is it old? Never have seen this title before. No pic of book either. Terri

Sensitive title isn't it, Terri? Odd as it's listed by Sharon Davis who recently brought out a Dusty book with a different title. I wonder if it's a listing mistake?

Without being too narky to Ms Davis I did find her book somewhat gauche in places - so it's a possibility that this was a working title. I can't see her publishing another title so soon.

That was the title the publishers wanted Sharon to use and she fought against it. I think it was originally listed on Amazon as this.

Thanks Will. I think they are changing the title to sell more books. It's the book that she originally wrote under another name. Shame on them!!!
