I was playing this album last night and reading the sleeve notes was looking at all her personal thanks and acknowledgements and this at the end has got me wondering who she was referring to, does anyone know??

Hi Liz, as far as I know it isn't a person. It means "to my Higher Power".

Yes, it's Higher Power. I've heard Elton John using those words too. It's from the 12 step programme for alcoholism.

thanks for the answers. makes me even prouder of her that she put that in as it obviously meant so much to her. she was quite something when you think of her recovery from all the adversarries. she would be much happier today, I think, as despite all the struggles today she came through all hers when it was much more
