😄 It will be Friday there before it is here.
So I guess I'll still be waiting.
I don't think I have a choice. 🗣️

actually Jeffery, it's the other way around- since it will be Friday overseas *before* it is Friday for us, that means we'll get the big surprise early! 😄 A little early, anyway.

either way, i think it'll be worth the wait. 🗣️

Yes Markus, that's so for you lucky people operating in a normal rhythm of life. 😄

My schedule (9 months out of the year) is 1:30PM to 10:pm 😄

I'm in a time warp that keeps me from interacting with others *in synch*.

I call it "an interruption of life",

but my health insurance, and pension depends on it, so I wait for everything. 🗣️
