...Has just been officially kicked out of the 'Survivor' thread.

Anyhow, it did make the last few.

I absolutely love this song which was a bonus track on the Reputation and Rarities album.

So, after all that...Maybe we should give the song a listen?

The Patti Austin version:

Can't find Dusty's 'take' on the song... but I'm sure that most of you have heard it... 😊

It's definitely one of my favourites Carole, I used to play it constantly when I got switched back on to music. Dusty's version of course.

thanks Carole, I hadn't heard Patti Austin's version before.

I think though Dusty was right not to include it on *Reputation*, I don't think it would have fitted the contemporary feel of that album.

You may be right there Clive. It is a beautiful song though and Dusty performs it so well. Not everyone is fond of Diane Warren songs but I'm a sucker for them.

This is one of Diane Warren's better songs and I'm glad this is included in the bonus tracks.

It's my favourite on the album, even though it wasn't included originally. I think it's under rated and I really love it:)
I dunno about it wouldn't have fitted, to me it always stood out, and it is different, but better different, and I think it'd have been a good thing.

I love this song, it's one of my most-played Dusty songs. I'm really glad it was included in Reputation and Rarities.

I think this is a great song by Dusty and very underrated.
