[Certain cd's/songs not on I-tunes...why?](#)

by [booklover](#) » Mon Apr 15, 2013 2:27 pm

Does anyone know why not everything from Dusty is available on I-tunes? 🙄
It looks like I'm going to have to buy (not that that's a bad thing, of course) "Where Am I Going" and I've already purchased "Very Fine Love" because again, I-Tunes doesn't carry them. If there is anything else by Dusty that is only available on cd, I'd sure like to know about it! Thanks in advance.

Hi Paul

Dunno why i-tunes doesn't contain certain Dusty songs/albums. 😞 🗑️

In my eyes Here's a a good alternative, type in 7 Digital UK (Sorry cant do the link 🙄) they have both the albums you mentioned , think the prices are similar, it seems secure, downloading is easy and you can pay with paypal if you wish. 😊

Sorry Paul just realized you are from the United States. Those two albums are available on the UK version. 📻

Maybe the reason they're not widely available is cos *Where Am I Going* and *A Very Fine Love* weren't originally released in the States ? 😞

Hi, Paul: I share your frustrations at the lack of Dusty items available in digital format. That said, the U.S. iTunes store does have a surprisingly decent collection of her music including live performances in both audio and video format. However, it has plenty of room to be more complete.

Perhaps your best bet is to seek the missing items from your collection through second-hand or third-party sellers such as eBay, Amazon, etc. Doing this also provides you with an original hard copy of the music, which is great in the event of an unforeseen data loss on your computer, or if you prefer to extract your audio into a lossless format (WAV, AIFF, ALAC, etc.).

"This rusty dusty heart of mine

How you've made it shine..."

"When in doubt, turn the echo nob up!"

"So you're the little lady who makes all the music..."

The likely culprit in this matter with Dusty's back catalog on iTunes is UNIVERSAL MUSIC!

Despite repeated attempts to convince Universal that they own just about everything in Dusty's back catalogue, they steadfastly refuse to acknowledge Dusty's back catalogue on other labels, most of whom are now under the Universal Music Co umbrella of companies. They insist they have the rights to only pre-1972 recordings. This means that the ABC-Dunhill albums (Cameo and Beautiful Soul), the 20th Century Fox recordings, the UA albums (It Begins Again and Living Without Your Love), the Casablanca Album (White Heat), EMI (Reputation) and Sony' (A Very Fine Love) all get pushed to the side in a tumble of contractual mayhem.

I know that many of you will reply that we've seen some of these tracks on other compilations however, Universal still has issues with releasing certain tracks.

We are headed for the 15th anniversary of Dusty's passing in about 3 years, so it will be interesting to see how Universal handles the next big compilation issue.
