Some of you might be interested in this link. A few years ago I bought some books related to Motown from this company. I recieved their spring catalog in the mail and I just checked online to see what they have. There are quite a few Dusty related items on sale. Annie's book and the one by Laurence Cole are under ten dollars if anyone is interested. I think these two books make great companion pieces to read. I think Markus mentioned Cole's book. It's one of my favorite books on her. The site is www.oldies.com

Just type in her name and search. I was surprised at how much they have.
