Bravo! One of my favorite design firms...
The link includes a short video ad

I'd spotted that a little earlier as well Ed and it's a Testino ad, so classy too. It's not the first time that Burberry have used Dusty, some clips appeared earlier this year. This is the full Burberry show from Beijing, there are three Dusty songs at 4.20, 14.00 and 16.25 for the finale 😊

great to see her included three times in this BIG advert.

I have mixed feelings about Burberry though after they closed down the factory in Treorchy in the South Wales valleys. the workforce had been there for 32 years as Burberry and production had been up 18% when they closed it to move abroad for a cheaper labour workforce. 😡

ironic then that they can splash out a fortune on such an advert as this and yet they decimated an area with very high unemployment by shutting down a very proud, loyal and skilled workforce. 😞
