Get on the love train..
While Gamble and Huff's major claim to fame may be the Philadelphia International label, they were also writers and producers on many other soul tracks by artists from Jerry Butler to Dusty Springfield to the Spinners.

One Gal's Musings..
I discovered her a little late but I'm glad I found her all the same.. Dusty Springfield, that is. I grew up thinking of her as the blonde who sang "Son of a Preacher Man." Oh, and I loved her ultimate 1960s look. All teased hair and fake lashes. She and Michelle Phillips defined 1960s fash for me. Really, that's all I knew of her.

What I Think You Need To Know
Among the first Hall inductees, in 2007, were Johnny Mathis, Connie Francis and Neil Diamond. So far, the list of nominees, for 2008, includes Doors, Dusty Springfield and The Kingston Trio.

A Girl Called Dusty

A Girl Called Dusty was the debut album of British singer Dusty Springfield. It was released in the UK on Philips Records in 1964. Dusty Springfield had been a member of the girl group The Lana Sisters from 1958 to 1960, and the folk-pop trio The Springfields from 1960-1963, in the latter with her with her brother Tom Springfield. During that time she had toured outside of London, and even Britain. While in the US she was exposed to soul music, which was to have a profound impact on her subsequent life and career. Although The Springfields were moderately successful with songs such as "Island Of Dreams", "Bambino" and "Silver Threads And Golden Needles" (a #16 US country hit), their style of music limited wide range of material that Dusty Springfield wanted to sing. Therefore, in 1963, Springfield decided to begin a career as a solo singer. Her first single, "I Only Want To Be With You", was actually recorded while still a member of The Springfields, and was released one week after their first concert..

The windmills of your mind..

Dusty Springfield has such a haunting voice. My favorite song by her is still, "You don't have to say you love me." I almost put it at the top of my playlist, but it was being troublesome.

Without Prejudice

From James Bond to the Beatles and Beyond is a good read. Follow as Bond Signature Theme Guitarist Vic Flick battles broken amps, broken hearts and crazy singers as he backs John Barry ("We got there and the castle's owner, a Count DeQuela, met us and fussed around making : we were comfortable in our suites"), Burt Bacharach ("...always a seeker of perfection in the studio..."), Dusty Springfield, Shirley Bassey..

The musicians using their religion

The only one who could ever reach Dusty Springfield, she told us back in 1969, was the son of a preacher man. As the hit single from her bes album - Dusty in Memphis - it is the song that defines Springfield for most of us. It also hints at a wider truth..

I Think I'm Goin' Baaaaaack..

What's more memorable about the ad, though, is the ghostly echoes of the song in the background.

*But thinking young and growing older is no sin,
And I can play the game of life to wiilin..*

Instantly Ciara sat bolt upright .. Admittedly, she actually shed a small tear with the nostalgia it immediately produced .. It's a gorgeously underrated song, and one that's worth repeated listens..

Chris introduced me to Shelby Lynne tonight - I was aware of the name but not the music. Sort of nu-country recently tuned into Dusty Springfield, southern USA accent and steel guitar riffs calling up images of endless highways through the desert..

But a new album - her tribute to Dusty Springfield JUST A LITTLE LOVIN' - and here she was, actually walking out onto the Festival Hall stage Friday..We had a six Dusty songs - "Just A Little Lovin", "Breakfast In Bed", "Willie & Laura-Mae Jones", "I Only Want To Be With You", "You Dc Have To Say You Love Me" and "Anyone Who Had A Heart" (yes I know it's tainted with Cilla but Dusty *did* record it in 1964).

Saturday Morning Soul

Mary Isabel Catherine Bernadette O'Brien, professionally known as Dusty Springfield, was an English pop singer. Of the female artists of the Br Invasion, Springfield made the biggest impression on the U.S. market. From 1963 to 1970, she scored 18 singles in the Billboard Hot 100. She voted the Top British Female Artist by readers of New Musical Express in 1964, 1965, and 1968. Springfield is an inductee of the Rock and Rol of Fame and the UK Music Hall of Fame. She was named among the 25 female rock artists of all time by readers of Mojo magazine (1999), edit of Q magazine (2002), and a panel of artists on the TV channel VH1 (2007).

Reaching 50, adadinsane gets Dusty amongst his presents

Yesterday morning I opened my presents. A couple of weeks ago Pam and I had gone to look for presents for a friend and in a tiny shop we fr some great paintings. One of which was of the eyes of Dusty Springfield. Okay, I love Dusty Springfield and have done since the 60s. My wife bought it for me, limited edition prints but the painter always writes something different on the back of each print and signs it, so each one is unique..

Queer music on 'Berto's Blawg

It IS liberating to hear someone like Rufus, or Jay, or kd singing openly and proudly about their feelings of love and longing for someone of the own gender. But the what of all the OTHER songs I love, and have listened to, whilst growing up? Is Elton John's "Crocodile Rock" or Dusty Springfield's "Son of a Preacher Man" off my list, because they were each in the closet when they recorded them? Pish. Don't be silly. A good is a good tune..

The Spectrum Online: **Local Theatre Debuts Fitting Tribute to Music Legend**

Downtown Buffalo's New Phoenix Theatre Company has begun its 13th production season with a fictionalized account of the last days of mus icon Dusty Springfield in "Dusty Springfield...With You". All in all, the play offers little room for complaint or poor sentiment. The play progress rather quickly and one is left with a drive to hear more of this remarkable woman. To anyone with a passion for the legendary music coming fr the Motown era, this production is wholeheartedly recommended. The New Phoenix Theatre Company has opened this season in nothing short triumphant manner.

The Independent On Sunday reviews Shelby Lynne

While her younger sister Allison Moorer has pursued a straightforward career as a country performer, Shelby Lynne has had a more patchwork approach to music, her initial decade as a country artist being followed by her 1999 reinvention as a rhythm and blues singer on I Am Shelby Lynne, and more recently by this year's album of reinterpreted songs from the Dusty Springfield catalogue, Just a Little Lovin'..

The Guardian asks, "What's The Right Song For A First Date?"

Safest to be utilitarian, keeping whatever you play to a low, mood-enhancing murmur: Miles Davis (Kind of Blue rather than Bitches Brew), Massive Attack's Blue Lines, Dusty Springfield's Dusty in Memphis, that sort of thing..

It's a relief to note that the musical taste of this website owner far exceeds his ability to code a site - which is, to say the least, exceptional poor! Be that as it may, he had the good sense to include Dusty on YouTube singing "I Only Want To Be With You". Unfortunately, it wasn't t 'LTD advert' version. I suppose you can't have it all.

The Orb of Whammy

I've decided to make it somewhat easy on myself and go with vocalists, and I've narrowed it down to female vocalists, to make things a wee more interesting. So, Top 5 Female Vocalists it is.. Contenders are as follows (in no particular order):
Dusty Springfield..

Martha and the Vandellas - Dancing In The Street

Poor, poor Kim Weston. Had she not passed on this song, she may be remembered for that being Marvin Gaye's first duet partner. Instead, Mr Reeves got to place another jewel in her crown.. Artists as diverse as Dusty Springfield, the Grateful Dead and the Carpenters also tackled th song..

Not worth a Shout! - panned by The Metro

Sometimes a show offers a stark reminder of how tough a jobbing performer's life is. Shout! is vacuous, cynical and, in the main, flesh-creepir awful. It's neither the fault of the classically trained cast or Claire Sweeney who, despite a charmless nasal bellow, gives it both barrels. Shou a nostalgia binge of 1960s hits, from Lulu's titular number to songs made famous by Sandie Shaw, Cilla Black and Dusty Springfield.. http://www.metro.co.uk/metrolife/article.html?Not_worth_a_Shout!&in_article_id=322158&in_page_id=223&in_a_source=

Owen asked me the other day which favourite singer I still had not seen in concert. I have been lucky to see practically all my musical heroes stage in some shape, form or fashion. The most obvious one I never saw was Dusty Springfield. However there are still two singers I would love to see... Aretha Franklin and Carole King.

The singer-songwriter, known for his satiric lyrics, began his career in the 1960s writing hits for other performers. The Montreal Gazette: A lot has changed since Burt was young - an interview with Burt Bacharach

Bacharach's true legacy includes tricky, barely perceptible tempo shifts, complex melodies that sounded accessible enough to be mistaken for easy listening, lush chords that seemed to come from somewhere else and the masterful tension-and-release dynamics of deceptively simple-sounding hits by the imposing likes of Dusty Springfield..

May 21 - June 20 Gemini

During the sign of Gemini in 1967, June 12 to be exact, the album Dusty in Memphis by Dusty Springfield was released. A great year for great records, this one was produced by Arif Mardin and Jerry Wexler and engineered by Tom Dowd. Those three names on any album virtually guarantees a classic. Rolling Stone placed it as Number 89 in the Top 500 Greatest Albums of All Time: ..blazing soul and sexual honesty...tha: transcended both race and geography. The back-up singers were the Sweet Inspirations and the band was Reggie Young's Memphis Cats. Re: more about the fascinating story behind this record in renowned music historian Warren Zanes' fascinating book Dusty in Memphis, part of the 1/3 book series. Zanes discusses the record and the book here.

She made good pop records with Blue Mink in the late 60's/early 70's as one of their two lead singers.. Before, during and after the Blue Mink Madeline continually released her own solo stuff.. a backup voice on many a Dusty Springfield record (and Dusty on hers)..

Dusty Discography

Dusty Springfield was probably the greatest female pop singer to come out of Britain and Ireland (Dusty was English-born with Irish parents). Having a wide vocal range, and a voice which could move through the gears effortlessly, Dusty's vulnerability - both in her voice and persona made her such a beloved singer of the 1960s to the present day..

Solange Knowles' sophomore album "SoL-AngeL and the Hadley Street Dreams" sounds a little bit as if it was recorded in the wrong decade. Indeed, Solange credits her inspiration for this album to Dusty Springfield, The Supremes and The Marvelettes; the sound is evocative of all o these artists..

☹️ From **The Music of Nick and Norah's Infinite Playlist** by Drake Lelane at Film.com Oct 6: **Rachel Cohn** recently provided a list of all the music mentioned in [her] novel [on which the film is based], which, in many respects, would've made for a better film, perhaps on with **High Fidelity**. Telling that the only artist that made it into this adaptation (Dusty Springfield, albeit with a different song, *You Don't Have To Say You Love Me*) wasn't included on the soundtrack [album].

I'll try to find out what Dusty track is mentioned in the novel - bet it's SOAPM!

☺️ The San Diego Union Tribune Oct 9 on Duffy: **Duffy's debut album is steeped in the music of the 1960s in general, with specific nods various Motown Records greats (think The Supremes & Smokey Robinson), Dionne Warwick, Phil Spector's fabled "Wall of Sound" records with Darlene Love, & such vintage Duffy favorites as The Walker Brothers & Ann Peebles. Yet, it is the late Dusty Springfield whom Duffy is most often compared by music critics, even though only one song on Rockferry – the album-closing *Distant Dream* is especially reminiscent of Springfield. The comparisons suggest lazy journalism, since Duffy's eye makeup & big blonde hair are more suggestive of Springfield than her voice.**

"In the beginning, I didn't understand all the comparisons, because I never even met this woman," said Duffy, whose singing style evokes that of 1960s It girl Lulu a lot more than Springfield. "I knew Dusty's songs & some of her records. But I was so heavily link it was like people thought I was a new version of her, which annoys me because nobody is replaceable. ☺️ Sharleen Spiteri in the Daily Star Oct 10 in answer to interviewer James Cabooter's question: *There's a lot of great female voices out there the moment, do you feel like you opened the door?.* **Not really, there's always been great women in music. Every generation has had great female talent it's nothing new. I feel we're still in the dark ages a bit when it comes to women in music. People still lump us a together and say things like 'girls are taking over'. But girls have been making their mark on the charts for decades whether it's Madonna or Dusty Springfield or Amy Winehouse.**

Bell's A-Poppin'

Madeline Bell is another soul vocalist who was trained in the gospel tradition, joining The Glovertones in her homestate of New Jersey when st was 16-years-old. She later teamed up with the Alex Bradford Singers, with whom she eventually traveled across America and Europe as part the cast of Langston Hughes' "Black Nativity". Upon completion of the tour, Bell decided to make her home in the UK, cutting her own singles doing background vocals for artists such as Dusty Springfield and Doris Troy. **Bell's A Poppin'** was her 1967 full-length solo debut album (on UK's RPM Records), an effort which thoroughly illustrates her poise and sophistication as a world-class vocalist..

If You Go Away

Jacques Brel was a Belgian, French-speaking, singer-songwriter. The quality and style of his lyrics are highly regarded by many leading critics popular music. Brel's songs are not especially well known in the English-speaking world except in translation and through the interpretations of other singers..Dusty Springfield.. Here he sings his famous song, 'Ne Me Quitte Pas', better known to English speakers as 'If You Go Away'. To heartbreaking.

Could It Be Madness?

Firstly, I don't presume that you don't have all of these, or that you are the one person in the universe who hasn't seen Pulp Fiction. Of course I'm a 21st century culture and technology beginner, but I'm just going to go ahead and post these things that made an impression on me somewhere along the way. So... There it is.

Dusty Springfield (Of course)..

Nick and Norah's Infinite Playlist

Telling that the only artist that made it into this adaptation (Dusty Springfield, albeit with a different song, "You Don't Have To Say You Love Me") wasn't included on the soundtrack..

Walking In Memphis

Then again, who has time for Elvis when B. King, Johnny Cash, Dusty Springfield, Isaac Hayes, and Otis Redding all recorded music here? ..

BEATLES - Day By Day - Friday, 4th October, 1963

The Beatles make their debut on the UK's top rated TV pop program, Ready, Steady, Go! The show was transmitted live between 6:15pm and 7:00pm from the Associated-Rediffusion studios at Television House in London. Even though the show was live the groups mimed while surrounded by dancing teenagers. The Beatles performed Twist & Shout, I'll Get You and She Loves You, and were interviewed by the show's co-host Dusty Springfield...

Includes video of a youthful Dusty introducing the Fab (tho not quite so fab as Dusty) Four..

Sunday Songs - what the world needs now

Jackie DeShannon has created a lot of magic as a songwriter in her own right. She is also extremely adept at singing other composer's music. It was Burt's "What the World Needs Now Is Love" that brought her a huge hit. Stephen Holden wrote many years ago these words about her voice "She comes out sounding like a Dionne Warwick-Dusty Springfield-Tammy Wynette amalgam, but softer and more emotionally reticent than any of the three.."
