Bought the dress that they had on Ebay and was quite surprised. It looked cheap in the picture, but it is actually quite heavy to be so small. I've seen pictures of Dusty in very, very similar styles. This may not be the real thing, but I'm quite happy with this purchase!!

Good you're happy, Terri! Why not post a picture for all to see? 😊

Sure will, Cor. Thought no one cared. This is the same dress that was on Ebay. I have worked 3 and a half weeks straight with no day off and have worked 8 double shifts in that time period. I have not had the time to check the forum. Plan on getting a pic JUST for you! Thanks for asking!

Hi Terri 😊 have you tried looking in the 'Who Can I Turn To' section?

There's some helpful advice there. Looking forward to seeing this dress 🤩

Would love to see the piccy, Terri. You can upload pics using photobucket, have you used that before? Just go onto [www.photobucket.com](http://www.photobucket.com) and upload your picture by selecting it from wherever you stored it. Otherwise you could always post the URL by copying and pasting it from ebay if it is still active. Just ask if you need some more help.

Can I say one thing. This set up sucks for people like me. I'm not computer savy, don't know what a gig is, don't care! Just want to get a pic out of Dusty. I want to show this dress. Help me!

Terri, you should be able to get it on here using the tabs. I had terrible trouble with Photobucket and had to get my young cousin to show me, she zipped through it so quick i missed it! Anyway, i've just tried a little experiment and it worked, but i deleted it 'cos my pics are already on here. Try this, make sure you have a forum message window open:

- 1) See the bit at the top where it says Lets Talk Dusty, with the little box to the right? Click the box and it will say 'Connecting'.
- 2)At the top it will say 'About Tabs', press delete to clear that, in it's place type 'Photobucket'.
- 3) Once there, you'll see your user name at the top of the page , click it to bring your photo's up.
- 4)Right click in the middle of the photo and it should give you a list of options, select 'Copy' and right click.
- 5)Next, go to the top of the page where the http// address is, click it so it turns blue, but DON'T delete it, leave it blue.
- 6)Go to the LTD tab and click, it should bring your message window up, make sure the arrow is in the window then right click, it will give you the 'Paste' option, right click and hopefully it'll work.

PS: Some computers are hyper-sensitive, for instance when i go into the LTD tab, i only need to tap the touchpad instead of clicking, you might need to play around with it a little. Good luck.

Just a last thought Terri, i've just seen Mary's post and i agree, take your time! You won't mess up the forum or Photobucket if you don't get it straight on.

A beautiful dress, looks late 60's to me, is there a pic around with Dusty wearing it?
