Where am I going?

I have recently been mulling with the idea of having an image of dusty tattooed on my body. I know some people dont like them but I do, I have two tattooes already, one on my right thigh, which i had done at the age of 17, which is a panther and a snake, the other was one i had done during my more rebellious years and is a cannabis leaf. Im not sure yet where exactly i would like the tattoo, the obvious place would be on my chest over my heart, however i am not that brave as it hurts like hell in that place in particular. perhaps on my upper arm, I dont know yet. the point of this thread is incase anyone would have any ideas about the image I should choose? I want it to be obviously dusty, but i would prefer it on a more abstract form, such as the cover of the Simply dusty and book set, which is one of my favourite images ever. i dont want her name or any writing, just an image that could be recaptured well by a good artist and transferred onto me. I have a few in mind but would appreciate any suggestions.

Neil

Neil, an abstract picture might be taken from the few lines that make the traditional Dusty drawing for the Musical Dusty the Original Pop Diva. You can get this image from the website that Rob posted on another thread a week or so ago. It shows a 60s Dusty with microphone and is quite evocative of Dusty.

I really like the idea of getting a Dusty tattoo. Im actually most likely going to get one myself!

Kathy's right, the Dusty musical logo would look great in a tattoo 😊

Its impossible to choose. There are so many images of her that i love and so many that would be the right one! i think i will get someone to pencil sketch some of them on their computer for me as the image can lose the "thing" that gets you about the shot. I like the idea of the musical, as there are less lines to do so therefore less pain!! This is going to take some time i feel, its gonna be there forever so it has to be right.

Neil 😊

Avatar #29--but the fuller view of it...the image of Dusty with her arms folded...I think that is absolutely iconic....and there's another one I'll try to find....one that is often Warholized.

Not a decision to be made lightly!

Hi Neil, the picture that comes to my mind is "Simply Dusty" like the t-shirt you have.

It would be cool to make an almost celtic shape with Dusty's face!

That's the other image I was thinking of. It has a similar iconic quality and you'll often see it Warholized.

I missed this somehow. Wow that is some tattoo, its very big which equals painful. I like the eyes very much.

I also like that pic of yours nancy, i think though, that i am down to four favourites,

And of course the hot favourite which is the one from the cover of simply dusty, but which i cant find anywhere just now.

some of these pictures i would just have small parts of or whatever. It really is impossible, if i were brave enough id have all four.

Oh definitely...and it's so much fun to pester Corinna into creating them, pretending that none of us other mods have the capacity to do so. Go for it, Neil.
