I've posted an update in the website thread but just to draw your attention to this.. On the updated website, we now have an exclusive interview with Julie Sawyer from Odeon Entertainment regarding the forthcoming release of the new DVD, "Just Dusty: The Real Dusty Springfield".

And it's worth reading :)

Stephen, you'll see the link toward the bottom of the main page of the LTD website. Note its the website, not the forum.

Good interview, Will. Every time one of these new DVDs comes out I am grateful but also reminded that there is so much that is still unknown about Dusty because of the people who will not speak up (like Tom) or who haven't been approached. And then there are those (who I needn't name) who have only told selected bits of the story. Let's hope this new DVD, called "The Real Dusty Springfield" lives up to its title!

Thanks, Annie :)

And yes, I hope - as you do - that the DVD justifies its' name. But you know, whether it does or not, it's (hopefully going to be) another little piece of the puzzle put in place and as more and more of those come together, the overall picture gets a little clearer.

Thanks Will

I have read the interview - lovely.

I also look forward to the dvd.

I wonder if you know of any progress on the Germany 69 DVD.

thanks again

Stephen
