Here's some of her brown hair - post more please.

Some of these aren't quite brown but they are darker than her usual blonde.

Nope! All of the above are really just various shades of blonde and as Mads says, a lot is to do with the lighting. Even the short wig looks to be two different colours here, the top one being more like it was in reality. I can't imagine Dusty ever appearing with brown hair....she just couldn't possibly do mousey 😊
