### Early US albums - vinyl versions in mono (#p186429)

by **countrycake** » Sat Jun 24, 2017 6:29 pm

Dusty's first three US solo albums are being issued in the States on 18 August in mono on 180g vinyl.

Hi there, do you have any more information about this?

Do you know how we will be able to buy them?

Hi Donella,

I got the info from Amazon's US site.

[https://www.amazon.com/s/ref=sr\\_st\\_date-desc-rank?keywords=dusty+springfield&fst=p90x%3A1&rh=n%3A5174%2Ck%3Adusty+springfield&qid=1499104266&sort=date-desc-rank](https://www.amazon.com/s/ref=sr_st_date-desc-rank?keywords=dusty+springfield&fst=p90x%3A1&rh=n%3A5174%2Ck%3Adusty+springfield&qid=1499104266&sort=date-desc-rank)

However, since I posted the info some changes have taken place on the site. Firstly, the release date has been put back to 15 September. Secondly, the entry for the 180g vinyl mono version of *Stay Awhile-I Only Want To Be With You* has disappeared from the main DS listing on the Amazon US site. It has been replaced by a listing for the 1997 CD issued by Taragon, which featured this album plus *Dusty*. However, if you click on what purports to be the vinyl version, that will take you to the entry for the mono vinyl album.

Did any forum members purchase these? I'd be interested to know if they used original mixes or folds from stereo. Are Premium Cool fond of using digital masters or do they go all analogue?

Here's a FB post from the mastering engineer of these releases, referencing "the original Mono masters". Would these mono masters differ much from their British counterparts? I remember reading that Philips US sometimes did their own mixes or altered the ones they were sent (adding more reverb etc.).
