Edward Leeson's book says 12 too.

So does no-one actually know for sure? I think 12 and a half because it says so on Full Circle and in that book it says 12. But Dusty said she was 11 according to mads... but who knows what she was on when she was watching it?? 🤔

HEY!

Nah its on that 1995/1996 video - Dusty says something like a little while ago she found an old record that she made when she was 11. And you could hear it then, a terribly grown up voice for an 11 year old singing When That Midnight Choo Choo Leaves For Alabaaaaaaam

Summan like dat!

To be honest, when you reach a certain time in life, remembering how old you were when you did a particular thing over 40 years back, is a pretty tough call! I think if Dusty says 11, she probably means 11ish 😊 Unless of course somebody wrote on the acetate at the time.

In the discography section of the *Complete Dusty Springfield* in the list of the tracks from the *Legend of Dusty Springfield* box set, it says it is a 1953

demo, that would make Dusty 13 or 14.
So now we have a possible age of 11,12,13 or 14!

Isn't 11, 12, 13 and 14 all the same thing anyway? 🤪

Her voice doesn't sound "baby-girly" but quite mature so I guess she was adolescent. Which again makes 11-14 probable, but no more precise. Hm.
