Unfortunately you missed it!! I never have the telly on at breakfast time as I like Radio 2, but I just turned on to set a recording for tonight and before the picture appeared, I heard the words Dusty Springfield. Then, there was Katy Setterfield in full Dusty garb and new wig, on the settee talking about her time in Vegas and the forthcoming tour. I have to say that I'm disappointed that neither Katy nor Andy bothered to let us know that this was happening. Katy has had a lot of support in the past from this site and it would have been nice. Did anyone see the whole interview?

I just happened to catch the interview.

The earlier snippet of Katy singing YDHTSYLM stated that Katy was going on tour and I assumed Katy would appear as Katy and talk about the tour. But no, she appeared as Dusty resplendent in pink lurex? and the new wig. The interview was 90% Dusty based, the interviewer not seemimg to grasp that Dusty had many voices during her career!!

The tour only got a quick mention at the end of interview, first date is at Christchurch , 5th? September.

When asked which singer she couldn't impersonate. she stated Kate Bush (Sorry Will) as Kate sang too high.

Never watch Breakfast TV, Carole..

But I might have made an exception had I known that Katy was on. What a disappointment

I caught the teaser for it just before I left the house this morning, but missed the interview. I thought I must have missed the heads-up on here.

I don't suppose it'll be on iPlayer - I don't think they include BBC Breakfast on there.

I was lucky enough to catch this.

Katy was very natural, as always, and fulsome in her praise of Dusty. She remarked and how she had "five or six" distinct voices.

I've had quick look on iplayer but i'm pretty sure Vicki is right, it doesn't feature breakfast time. Perhaps Andy recorded it and will post on Youube as a promo???

I'm especially curious to know what was said about Las Vegas since I saw here there? She told me she planned on returning in 2009, doesn't look like it now :(-maybe in 2010 :)?

I saw Katy in 60's style on the TV screens as I was going into work, i thought it would be mentioned here!

Hopefully someone has it recorded and there'll be a You-tube link.

It would have been, Mark - had any of us known about it.
