It has just been announced Cilla Black left 15.2 million in her will....not bad for a Liverpudlian coat check girl.  
Do we know how much Dusty left in her will ?

According to the Karen Bartlett book (Page 328) Dusty only made a list of people(and Nicholas) and Charities she made provisions for, but not the amounts. Some of these people disclosed the amounts, but there appears to be no total or breakdown of figures on record.

Nice to know some of her life still remains private after the media and some of her "friends" gorged publicly on the rest of her life.
