 Last night I scoured my CDS for reference to "Ontmoeting Russ Conway - Holland - 23/1/64. I searched Diary of events / UK performances / Live performances / of course not US performances, but PH shows no references to that show, or I've missed something. Can anyone clue me in ? Jeffery

Hi Jeffery, I don't think that I understand your question. What's PH & what's Russ Conway got to do with Dusty?

PH = Paul Howes  Jeffery, you'll find what you want on page 422 of the hardback version, it's under the Goin' Back section rather than TV appearances.
