This appears in Wikipedia under Jorja Fox:

After leaving CSI in 2007, Fox produced the musical *Stay Forever: The Life and Music of Dusty Springfield*, starring Kirsten Holly Smith, about the tension between the public image and the private life of bisexual musician Dusty Springfield, which played at the Renberg Theatre in the Los Angeles Gay and Lesbian Centre.

Do we have any more information about this?

Isn't this show now known as Forever Dusty Kathy?

😊 *Stay Forever* was a one woman show written & starring Kirsten Holly Smith: it became the off-Broadway show *Forever Dusty* after Kirsten expanded her original book with co-writer Jonathan Vankin to include roles for four additional actors.
