What do we know about Tim Field?

After leaving The Springfields I know he went into the spiritual healing world, writing many books on the subject - but did he completely sever 'ties' with the music world ? Did he ever 'get together' with Dusty or Tom ever again ? Do we know the reason he left the group in the first place?

Hi Brian, Tim Feild is now known as Reshad Feild. He is a Sufi teacher and author. You can find a lot of information on him on the internet.

The "official" reason he left was that his wife was ill and he wanted to spend more time with her. But I read an interview he gave in the eighties or nineties where he admitted he couldn't deal with the volatile relationship between the Springfield siblings. He's obviously a sensitive, spiritual kind of guy and he couldn't take anymore of the yelling and screaming.

Apparently most of the arguments were about musical choices and direction, and he felt they should just be able to discuss things rationally, but Dusty and Tom never passed up an opportunity for a good old fashioned blow-out.
