Was Dusty left - or right-handed?

It's funny where my mind wanders to when I've just finished work and am relaxing with a beer.

Was Dusty left- or right-handed? The reason I ask is that as a dancer I know that it's usually your non-writing hand that is the most expressive and 'connected' to you emotionally. I notice that Dusty held the mic in her left hand most of the time and gestured mostly with her right hand - this leads me to believe that she may have been left-handed.

I'm right-handed, and I know that all the emotion and expression is in my left hand/arm!

I realise this isn't quite up there with the stabilising of the global economy as a burning issue, but I'm sure you all understand my need to know, even though non-Dusty people would think I was completely bonkers
