Wasn't sure whether to put this under another section, but hopefully we'll see a little of Dusty in either programme.

10.40pm - Motor City's Burning: Detroit From Motown To The Stooges.

Documentary looking back at the Motown years in America.

01.10 am - Motown: A Culture Show Special.

Programme marking the 50th anniversary of Motown.

Both write-ups look good and i'll definitely be watching 🤩 . An earlier programme sounds interesting too but it doesn't specify much about music, 8.00pm Requiem For Detroit.

All these BBC2 this saturday (13th march), worth staying in for 🎉 even if the first two are repeats 😊
