There's a funny clip of Dusty sitting in a chair lip synching SOAPM with a fireplace in the background. Once in a while the camera will do a closeup on the fire.

Does anyone happen to know the show, the date, or anything at all about this "performance"?

I think the one you're talking about is from the Charles Aznavour Show in 1969.

Is that the guy that made her sing in the forest in the middle of the night? And they filmed together in France on deckchairs?

I seen that now - Thanks to mrs bosseh moo - I think it is brilliant - shame she lipsynchs though. - Did she have a reason, because she usually did (like flu or larangytus Larangytus larangytus Some one help me out here!)
