For you who were waiting for the Dusty Special - here's an update by Simon Bell:

"I have just been told that the August 31 Simon Bell Show (Dusty Springfield Special) aired 2 hours late due to a server problem. It will be repeated this Tuesday in the scheduled spot at midnight BST. [www.pop1radio.com](http://www.pop1radio.com)"

I cant seem to get this and its not on catch up so I would never have managed to stay up 2 hrs from midnight 😞  
is there any other way anyone knows to listen to this and did anyone here catch it,if so what did he play and say please 😊

It's a pity it's broadcast in the middle of the night. I turn into a pumpkin by midnight! 🍷

could be worse Cor, it could be one of those mushrooms or a tasty Christmas sprout 😊  
but seriously its such a shame noone seems to have heard it or recorded it as Simon will have been great talking and playing Dusty for two hours 😊

didnt anyone on here get to listen to this then 🤔

I was wondering if Simon would have recorded it for himself and if he has maybe he would be willing to copy it for the site as we could then all buy a copy via donation to our Dusty charities on here 🤔 any way this could be done 🤔

yes i listened to it, wish i'd written down the tracks as they were played, i remember him saying his favourite album was 'ev'rything's coming up dusty' and his fave track been 'i had a talk with my man'. He played tracks from that album as well as others.

Sorry i can't be much help but when i hear things once i soon forget them 😞 if i remember anything else i'll post back.

anita x

Joe from Popmundial (where Simon's show is broadcast) tells me that he was repeating the show over and over again - almost 35 times - during the following 2 weeks. Had we only known that....!

He's looking for a time slot now and will gladly repeat the programme again for us. As soon as I've got the new time/s, I'll post them here.

In fact, Simon's show inspired Joe to the degree that he's now planning a more in-depth Dusty show with biographical data, songs from the Springfields etc. So that's something to look forward to! When there's news about this, I'll let you know.

oh thanks Cor, is there a chance we can get this recorded by someone clever here so that we can all hear it and keep it. 🤔 I cant listen to that live as its so late at night.can only get the channel on the computer so I cant record it either. so is there anyone on here who will be able to and then share and as I said before we could all contribute to our Dusty fund from that please please 🤔 I also love the thought of the next programme re Dusty if he can do it but again is there then someone who could record it for us so we can all hear it and again we could then put money into our Dusty fund from obtaining it 🤔

I don't know if there's a way of recording the show. I haven't tried. And I don't know if Joe can supply us with a file (he can't do mp3, he says), as there might be copyright issues.

According to him, the new in-depth Dusty special will be broadcast on Tuesday 5 Oct. midnight BST.

Don't despair, Liz. 😊 We're looking at the technical possibilities. Where there's a will, there's a way, as they say.

thanks Cor, this special show and the Simon show needs to be heard by as many as possible. 🙏

I wish she had a regular playing slot on a mainstream show and not just the hits that they play a lot.

I am always so pleased when she is played as we all are, but we all feel the same ,that her other many wonderful recordings should be heard. 😊

its great that she at least ,still, gets more regular airplay than many of her Generation.

I was thinking that if we all wrote to someone like Paul O' Grady and maybe Graham Norton, who are fans of hers, that we could get them to play her each week as a specialised fan slot 🙏 could it work 🙏

Why don't you UK'ers draft a letter together? It's well worth trying!
