Just watched the documentary South Bank Show and I must say I really liked the way it was filmed and most of the information given- it was a bit more candid about many areas of the complete Dusty in a way I think she would have approved of- I esp enjoyed Billie Jean King and Mrs Rhodes commentary.

This was a new one for me to view- I was very moved by parts of it.

I haven't seen this one in quite some time; I'll have to go back and give it another look.
