Hi again. 😊 This may be an obvious question, but can anyone jog my memory?

Are the songs from the unreleased Jeff Barry-produced Atlantic album that are *not* included on the US deluxe edition of 'In Memphis', available elsewhere?

According to The Complete DS, the following songs were produced by Jeff Barry, and they're available on either DIM deluxe (as Michael says) or on See all her faces. Except for I believe in you, and I've misplaced my book right now, so can't look it up to see what Paul writes about that song.

- All the king's horses** - on DIM deluxe
- Haunted** - on See All Her Faces
- Have a good life baby** - on DIM deluxe
- I believe in you** - ?? (can't find my Complete DS right now!)
- Love shine down** - on DIM deluxe
- Nothing is forever** - on See All Her Faces
- Someone who cares** - on See All Her Faces
- You've got a friend** - on DIM deluxe

Yes they are included in the 1992 re-issue of *A Brand New Me*

I hadn't heard it before either - so thanks indeed Clive.

Anyone got it and would be prepared to post as an Mp3?

Heck, Kids

I thought you guys had everything Dusty ever recorded. I've had this forever. If there are any other U.S. issued songs you don't have, just whistle 😊 It's one of my favs!
