Watch out for.....

Page 1 of 1

by **daydreamer**

Alan Titchmarsh on Monday! Well, not really him but The Pet Shop boys who are appearing on the show and are set to sing their new release and "one of their classic hits". Simon saw a preview and says they said they will bring Dusty back through the magic TV. Maybe they've realised that they really do get the best reaction when Dusty is with them rather than the Lady GaGa's and Cerys Matthews of this world 🙄

Any chance of a link Wendy? I have been to have a look but unless I'm being particular thick, I couldn't find them. I'm really pleased that out of all their songs, the boys chose to sing the one with Dusty, I just wish they'd used the footage they used on their Nightlife tour rather than the psychedelic ones they did use. Still good though 🙄

I can't separate it from the rest of the prog but 'WHIDTDT' begins at 35 min.

You're not being thick Carole - I took those shots from the TV, but it is on You Tube now.

Arghhhh Dusty's performance is not on here - How very dare they - is there to be a part 2???

Yes the Night Life Tour was brilliant wasn't it. I loved it all through.

The Night Life Tour was lovely, how Neil blows Dusty a kiss at the end, it's so touching...

Maybe it's my turn to be thick but I didn't see PSB perform with Dusty on the YT clip....?

It was the shots you had put on the "art forum" that I couldn't find Wendy. I hadn't realised you meant under See All Her Faces, I thought you meant they were on your website. Told you I was being thick!

I watched it and I love everything they say about Dusty, when she came on the screen even tho' we've seen it lots of times it still made me so proud to be a Dusty fan.

Sorry Carole = it's me being thick, I have put them on there as well, here's the link to them and one or two others you might like as well, it's on a page called Dusty in Colour

I've just watched them talking with Alan about her..full of praise.

I quite like the electric modern set up of her as it appeals to the young generation. 🌟

Thanks for the itv player set up...I would have missed this prog but for logging on here today!! 😊
