All this talk about Biographies again got me wondering whether Dusty would have ever gone into print.

I know that she said that she couldn't remember half of what went on during her bleak years, but was that just a defensive mechanism?..

I guess she could've used her imagination (as most of them do) to fill in the blank bits. 😊

Just wondered what *you* think?...

I don't think she ever would have, I firmly believe that Dusty wanted to keep her private life, private for ever. If she wanted to put things in print, I think she would have had time when she was ill, and that would have been the time to do it, but she didn't.

Dusty once said in an interview that she was almost schizophrenic about keeping her private and her public lives separate. That should give us a clue as to how she felt about that.

Agree with you Wend, she did have the time ,but was a private person,with her funny side she would have turned it into a comedy anyway.

Full Circle is the closest we'll have to that.

And let me one-up this question and ask who do you think is "qualified" to write about her?

Dusty = winner and still Miss Valentine!

I agree with Wendy and Karen...I don't think she would have written a autobiography

I cannot help but wonder if Dusty was still with us and lived through breast cancer, read more bios in her life, IF she would have considered writing her own. She may have softened her feeling about privacy in later years. Time does difinitely change things. Guess we will never know the answer :(

I very much doubt it, Shirley Bassey hasn't done one either.

R Cilla has, but then she never could stop talking could she, eh chuck! 😊

Well, I certainly think Annie is qualified to write about her, from an academic/professional standpoint; she did an excellent job with her own book about Miss Dusty. There are others who I think could contribute a great deal of human truth to such a book without sensationalizing it, namely Simon Bell and her brother, Tom. I think they're not likely to comment at all on her personal life for any biography, though. Simon's made some excellent observations about her professional life on some recent DVDs, though.

As for Miss Dusty writing her own autobigraphy, I tend to think she'd never have done it. Not for fear of secrets and confidences coming out, but just because I don't think she'd have cared to reflect on her life that much, or put that much energy into dredging up the past.
