wev' e all seen this picture,now lets talk about the records

 Image

i have circled the records

the green circle is Black Nativity- featuring Madilene bell

the blue circle is the excitors

the yellow circle - er i dont know but someone will know i'm sure

the red circle is the interesting one- "it is called Music to strip by" 🤪 by Bob Freeman

and his orchestra, on the Surprise label, distrubuted by Island records--now what a lot of

people dont know is that the some of the albums came with a free G-string!!!!- i dont

want to jump to conclusions but i am uncertain if that s a guitar string or a form of

underwear 🤪 - now then, not a lot of people know that !!

Found this li'l snippet re 'The Music To Strip By 'album.

#### *Music To Strip By With Insertion*

*Posted by hiatt@alaska.net(A) on April 11, 2009 at 16:23:27*

*I met a friend coming out of the thrift store today, and he showed me the treasure he found below for only 50 cents.*

*There have been a lot of strip records in the past, but I have never seen one that came with its own g-string. What's even more amazing is that the g-string insert was still in there after 53 years or so.*
