After seeing your posting, Clive, I tried to find out about these books.

The publisher of both is shown as Blurp, which exists as a platform to enable users to self-publish. A search of both the UK and US websites for anything about Dusty drew a blank. I did however find a book about the PSB's Pandemonium Tour.

My guess is that these two latest books will simply be collections of photographs.

thanks Jim, I hadn't heard of the publisher or author before so self published does make sense.

I would say you are right also that they are photo only.
